SAMSUNG

Samsung Galaxy S10+

The super-powered, intelligent phone that keeps up with your busy work life.

As your working day gets busier, you need a phone that helps you get more done on-the-go. A super-powerful device that keeps up with your busy schedule. So, you can review spreadsheets on the train, video conference from home, and stay connected wherever you are. You need a phone that learns how you do things, and uses intelligence to help you work faster and more efficiently. You need the Samsung Galaxy S10+.

Infinity-O Display.

Get more done with a bigger display. Editing complex documents on the move is tricky with a small mobile screen. That's no problem with the Galaxy S10+. The large, curved-edge display has no home button or receiver notch, giving you an uninterrupted viewing experience.

Wireless PowerShare.

Share your power. With the Galaxy S10+, you can use Wireless PowerShare[1] to bring a colleague's drained phone back to life. You can also use it to charge your wearable. So, if you're out of the office, or travelling for business, you carry fewer cables with you.

Ultrasonic Fingerprint Scanner.

The Ultrasonic Fingerprint Scanner is the newest way to keep your phone and information safe. It's highly secure, reading every ridge and notch of your finger. And because it sits under the screen, your finger won't accidentally smudge your rear camera ever again. It even performs in low temperatures and strong sunlight.

Samsung Knox.

The Galaxy S10+ is protected by Samsung Knox, our defence-grade security platform built from the chip up. No matter where you go or what you do, you can be sure your business' data stays secure with superior protection that's easy to manage.

Samsung DeX.

Enjoy Samsung DeX by directly connecting the Galaxy S10+ to a monitor with a single cable[2] for a PC-like experience. Access a world of apps and documents optimised to let you work like you do on a PC. You can still use every feature of the Galaxy S10+ while you're connected to the big screen.

1. Wireless charge compatible (QI standard) devices only. Battery charge above 30% required to PowerShare on the move without being plugged into mains charge. 2. USB-C to HDMI cable and accessories sold separately.

SAMSUNG

Samsung Galaxy S10+

Processor
Exynos 9820 Processor
Octa-Core 8nm

Desktop Experience
DeX built-in (Lite)
DeX Station and DeX Pad compatible[2]

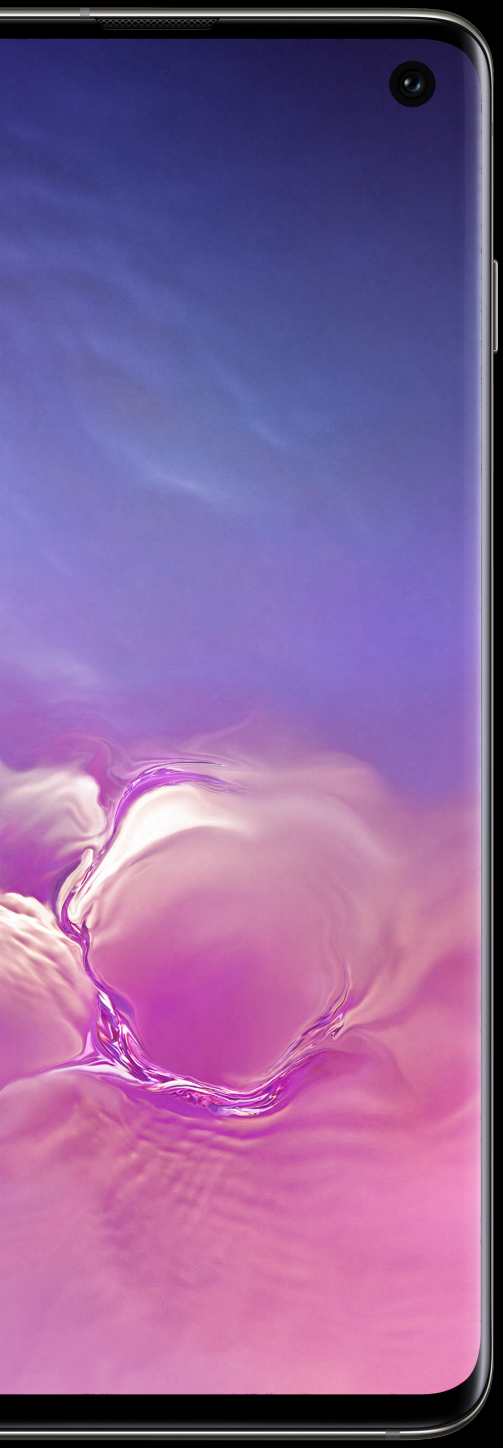
1. Wireless charge compatible (QI standard) devices only. Battery charge above 30% required to PowerShare on the move without being plugged into mains charge. 2. USB-C to HDMI cable and accessories sold separately. 3. MicroSD card sold separately. External memory can be used to store media (photos, video and music files), but not applications. 4. Including in-box accessories. Excluding battery which is covered by a 12-month warranty. 5. IP68 water resistant up to 1.5 metres for up to 30 minutes. Rinse in fresh water afterwards.

SAMSUNG

Samsung Galaxy S10



The powerful phone that helps you work smarter, wherever you are.

In this fast-paced business world, you need to stay focused and productive. You need a powerful phone that helps you work quickly and efficiently, and stay connected wherever you are. One that lets you carry all your work with you in one device, and keeps your sensitive data completely secure. A phone that lets you capture the world as you see it, then instantly share every detail with colleagues. You need the Samsung Galaxy 10.

Infinity-O Display.

Get more done with a bigger display. Editing complex documents on the move is tricky with a small mobile screen. That's no problem with the Galaxy S10. The large, curved-edge display has no home button or receiver notch, giving you an uninterrupted viewing experience.

SAMSUNG

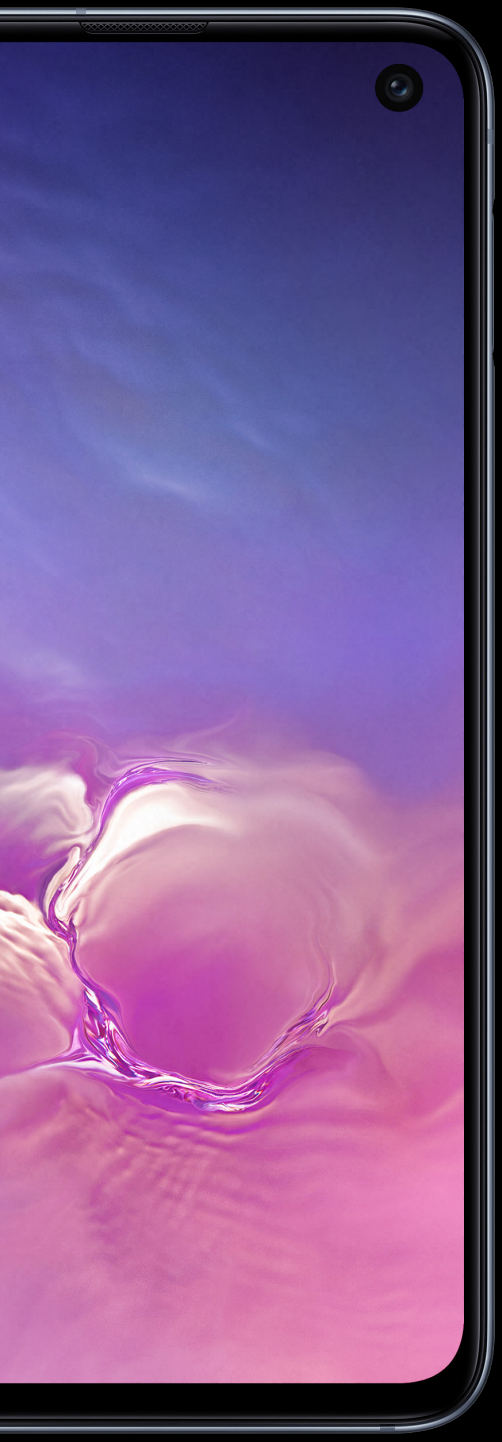
Samsung Galaxy S10e



The powerful business phone that keeps up with your busy work life.

As the business world moves faster, you need to keep up. You need to work quickly and efficiently, with enough charge to handle a full-on workload. That's why you need a powerful phone that keeps up with your busy schedule. A phone that lets you update documents on-the-go, stay connected with your team wherever work takes you, and even share your battery power with colleagues. You need the Samsung Galaxy S10e.

Infinity-O Display.

Get more done with a bigger display. Editing complex documents on the move is tricky with a small mobile screen. That's no problem with the Galaxy S10e. The large, flat display stretches from side to side with no home button or receiver notch—so you can see more of your work.

Wireless PowerShare.

Share your power. With the Galaxy S10e, you can use Wireless PowerShare[1] to bring a colleague's drained phone back to life. You can also use it to charge your wearable. So, if you're out of the office, or travelling for business, you carry fewer cables with you.

Side Fingerprint Scanner.

The Side Fingerprint Scanner keeps your phone and information secure. In one simple move, you can access everything in an instant while holding your phone naturally.

Samsung Knox.

The Galaxy S10e is protected by Samsung Knox, our defence-grade security platform built from the chip up. No matter where you go or what you do, you can be sure your business' data stays secure with superior protection that's easy to manage.

Samsung DeX.

Enjoy Samsung DeX by directly connecting the Galaxy S10e to a monitor with a single cable[2] for a PC-like experience. Access a world of apps and documents optimised to let you work like you do on a PC. You can still use every feature of the Galaxy S10e while you're connected to the big screen.

1. Wireless charge compatible (QI standard) devices only. Battery charge above 30% required to PowerShare on the move without being plugged into mains charge. 2. USB-C to HDMI cable and accessories sold separately.
